The YOU Awards International (The YA's) is a non-profit organization that was specifically designed to provide support and recognition to young people who stand out in their communities, but have not truly been celebrated. Every day, we as a society are flooded with negative images and stories, and are rarely shown the positive; the goal of our organization is to bring those positive images and stories to the forefront by seeking out extraordinary youth. This is done through research, as well recommendations by individuals, schools and other organizations. We honor our prodigies with a trophy and one-time monetary gift--a merit award--during our annual awards show, as they are recognized for their talents in academics, sports, business, fine arts, entertainment, technology and community service.
